

TOWN OF HUMBOLDT NEWSLETTER

March 1, 2024

Recycle Center Updates

We continue to encourage all residents to recycle, as the recycling market is once again improving and this month, we are receiving a rebate of \$8/ton. Thank you all for continuing to recycle.

Single stream recycling means all tin, glass, plastics, aluminum, and paper can go in the same container. We are accepting recyclable metals once again. There is a bunker/bin available for metals. Please separate from usual garbage.

COMMUNITY CENTER UPDATES

With the ARPA moneys received from the federal government due to the Covid pandemic, the Town not only installed playground equipment but built a new storage shed for the Town's tractor, mower, road signs and other equipment. The remaining balance was used for road work.

Due to rising costs we have increased the cost to rent the Town hall- now \$125 per rental. Please contact the clerk for available dates and procedures. The contract is on the Town website to print off and complete.

COMPREHENSIVE PLAN MEETINGS

The Comp Plan committee/group continues to meet almost monthly to update the Town plan. Once completed we will have it available in print for any one to review, comment and make any other suggestions or changes they might think are necessary. Please watch the website for dates to view the new comprehensive plan.

Batteries and battery containing devices – especially those containing lithium batteries - are a fire hazard when placed in garbage or recycling. Because of this, the County has created a battery take back program, the Batteries NOW Included program at Brown County Resource Recovery. They take and dispose of household batteries and battery containing devices for free.

These batteries spark fires and the solid waste and transfer stations have had at least 3 fires recently due to batteries. PLEASE recycle or dispose of properly.
